

## home bio:

SQUARE FOOTAGE: 3,309  
 (main floor 2,192, second floor  
 1,117, optional garage apt 1,270)  
 BEDROOMS: 4  
 BATHROOMS: 3

**Plan name:** The Citadel  
**Producer:** True North Log Homes  
**Architectural style:** Southwestern

**Primary features:** The Citadel offers creative design features and an open concept. The upstairs master bath features a bump-out with a hot tub and a balcony. An octagonal dining area and spacious breakfast bar with a cooktop make entertaining easy.

**Recommended materials:** Dovetail-notched knotty pine for the walls, hardwood floors, slate or tile for the bathrooms, interior and exterior timber accents.

**Materials you can customize with:** The Citadel can be built with any style of wood. Stone facing, plaster, and different can be used to break up the look. Timber accents can be added

**Why is this a favorite?** Additional space over the garage can be converted to another bedroom. Flat logs, plenty of wall space, and numerous bump-outs and dormers allow for the display of plenty of artwork.
